Why are you ignoring the criminal harassment of people, blacks also, in your community. Democrats are supporting candidates who have violated our state constitution and your still supporting them? You will hear im 2020 from the disenfranchised that the democrats have excluded from the process.

Mr. Russell I appreciate your passion regarding our community and the Democratic Party, but I excuse myself from your presumptions about my involvement with the Democrats. I choose at the core of my being to be an independent, but because of our two party system I have to be a Democrat. With that I am working to change the way things are done on all levels of government to ensure equal access, equitable outcomes, and inclusion of all person's, but especially person's of color, women, those with low socioeconomic status, those who are disabled, immigrant populations, and LGBTQIA communities.
